is here for producing

Geppas strives to ensure that every product is delivered to the consumer at the highest quality and at the most affordable price

All under one roof producing policy provides Geppas a unique structure that every step from the first phase of production to the final delivery is specialized aiming customer satisfaction

Starting its journey in 1992 by producing plastic injection machine with the name of the company “Gezen Plastic” in Konya/TURKEY. In the year of 2000, Gezen Plastic started to provide a solution to many companies in the plastic injection and plastic blow sector. In 2005, the first step was taken in the veterinary medical sector and the new company “Geppas” was founded.

■

Today, Geppas manufactures more than 30 products in the veterinary medical sector, from medical materials that used by veterinarians to farm equipment that used in farms. All this product is performed wholesale sales across the Turkey as well as exports abroad. Geppas strives to ensure that every product is delivered to the consumer at the highest quality and at the most affordable price.

■

All under one roof producing policy provides Geppas a unique structure that every step from the first phase of production to the final delivery is specialized aiming customer satisfaction. 28 years of experience and the expert stuff who are specialized on their field are the key points of Geppas’ customer satisfaction.

■

Geppas has supplied acceleration to the sector with the improving institutional structure and fast growing producing power that it has. Our company continues its R&D studies to be the pioneer of innovation and sustainability in the sector with its many patented products; and always proud of being known as a trustable, specialized, fast, qualified and competitive partner by its customers.
